

RESILIENT SEAT GATE VALVES

BRITISH STANDARD NON-RISING STEM

Ref. 121A-VI / PN 10-16

Application

Drinking water networks
Bulk water storage
Process water systems
Pump stations
Sewage water networks
Irrigation projects

Approvals/Standards

Design: DIN 3352
Manufacture according to: EN 1074-2./GB/T12232-1989
Face to Face: EN 558-1 Series 3 (British Standard)
Mounting between flanges: PN10/16 EN 1092-2, ISO 7005-2.
Pressure Tests acc. to EN 12266-1 Rate A. GB/T13927-1992
Pressure Tests: Body: 1,5 x PN. Seat: 1,1 x PN
EU directive 2014/68/EU:
Products excluded, article 1, § 2b up to DN300. Risk Category I MoD. A from DN350 to DN600

Certifications

CE, WRAS, ACS, EN 1074-2

Range

DN40-800, PN10-16

GENERAL CHARACTERISTICS

100% suitable for underground installations
 Range from DN40 up to DN800
 Full bore.
 100% Tightness in both directions.
 Minimum head loss.
 Repackable under pipeline pressure.
 By-pass available.
 Low torque values.
 WRAS epoxy paint 250 microns:

WORKING CONDITIONS

Pressure ratings: 1.0 Mpa, 1.6 Mpa
 Working temperature: -10°C + 90°C
 Suitable media:
 - Water
 - Alkaline solutions.
 - Diluted acids.
 - Glycols.
 - Alcohols.
 - Inert gases.

	RAL 5015 Painting	Epoxy 250 µm	DIN 3476-1

Components may be replaced with materials of equivalent or superior grade without prior notice, in accordance with our continuous improvement policy.

The stem is sealed with a total of six O-rings inside the bonnet. The three O-rings placed in the upper internal part of the nut and the one located on the exterior, can be changed with pressure in the pipeline if the valve is fully open.

The liner's sealing face provides a more effective seal and reduces the torque required to close the valve.

Most factories design the gate at the same level as the sealing face. However, when the valve is closed, the increasing inlet pressure pushes the disc outward and forces it against the valve body. Over time, this constant stress damages the rubber coating on the area marked as "A."

DAVINCI design recognizes this issue and introduces an innovation that prevents such wear, extending significantly the disc's service life and ensuring more reliable valve performance.

The body of the valve has guides to facilitate the movement of the gate and ensure a 100% watertight seal.

The torque figures don't include security margin.

OPERATING OPTIONS AND OPTIONAL ACCESSORIES

Our engineering team provides customized solutions tailored to each customer's specific project requirements. Our manufacturing plan includes the following operation options for manual gate valves.

Standard version:

- Supplied with top cap.

Optional accessories:

- Handwheel.
- Position indicator
- Extension spindles.
 - Rigid
 - Telescopic

FLOW CHARACTERISTIC CHART

The Flow Characteristic Chart illustrates the relationship between flow rate and pressure drop across the gate valve under different operating conditions. By reading the diagonal curves, end customer can quickly determine how much pressure loss will occur at a given flow rate for various valve sizes.

DAVINCI VALVES full-bore design allows very low flow resistance and minimal pressure drop when the valve is fully open, ensuring efficient performance in water distribution and industrial piping systems.

FLOW CHARACTERISTIC CHARTS

CERTIFICATES AND CERTIFICATIONS

Standard version

- 2 years warranty Certification
- 3.1. Technical Standard Test report supplied
- Possibility of additional Testing proofs, under request
- Certification for components and for whole product per request.

Form QAT_10-M05, version 02, effective since October 07th, 2022

VERIFICATION

No. 3N240126.DV0513
Test Report / Technical Construction File no. B-52401C0082

Verification's Holder: DAVINCI VALVES
18 Dongyu Street, Square One 11th Floor 1101, Jinjiang District, Chengdu, Sichuan, China

Verification ECM Mark:

Product: GATE VALVE DUCTILE IRON
Model(s): 200
DN50-DN1200 PN10-PN16

Verification to: Standard: EN 1074-1:2000, EN 1074-2:2000+A1:2004
related to CE Directive(s): 2014/68/EU (Pressure Equipment)

This document has been issued in accordance with the European Commission's note of 14 September 2022 ref. Ares (2022) 4342894 concerning voluntary certifications with non-notified procedure and for products intended for third countries outside the EU market.

The manufacturer has voluntarily decided to submit its documents concerning the above-mentioned product for verification. Ente Certificazione Macchine confirm that the documentation made available and immediately returned to it, as containing sensitive data, meets the essential requirements of the above-mentioned directives. The verification activity carried out exclusively concerned the technical documentation and no verification was carried out on the product. This document cannot replace the EC Declaration of Conformity. The above conformity mark can be affixed to the technical documentation in accordance with the EC regulation on its base and use, published on the website ec.europa.eu/euipo

Issuance date: 24 January 2024
Expiry date: 24 January 2026

WRAS APPROVED PRODUCT

This certifies that

DAVINCI VALVES

has had the undermentioned product(s) examined, tested and certified as being of an appropriate quality and standard as required in the Water Supply (Water Fittings) Regulations and Scottish Water Byelaws, subject to scheme requirements being met when installed.

Model Numbers

200 RANGE OF GATE VALVES: DN50-400

The certificate by itself is not evidence of a valid WRAS Approval. Confirmation of the current status of an approval must be obtained from the WRAS Approvals Directory (www.wras.co.uk/ directory)

The product so mentioned will be valid until the end of:

April 2028
Certificate No. 2304364

Ian Hughes,
WRAS Approvals Manager

ATEST HIGIENICZNY B.BK.60110.1585.2025

ORIGINAL

NATIONAL INSTITUTE OF PUBLIC HEALTH NIH - NATIONAL RESEARCH INSTITUTE

Wyrób / produkt: Zasuwy klinowe seria 200A, Zasuwy żarnotne seria 400A i 420A, kompensatory seria 300A

Zawierający / containing: żelazo stalowe z powłoką epoksydową, stal nierdzewna, EPDM

Przeznaczony do / destined: montażu w instalacjach służących do przesyłania wody przeznaczonych do spożycia przez ludzi

Wymierzony wyrób produktu odpowiada wymaganiom higienicznym przy spełnieniu następujących warunków / The above-mentioned product is acceptable according to hygienic criteria with the following conditions: nieistnieje możliwość do przesyłania wody przeznaczonych do spożycia przez ludzi przed oddaniem do użytku należy przepłukać wodą w ilości zapewniającej jej całkowity wymyśnięcie

Atest higieniczny jest ważny odczytany parametrów technicznych, właściwości użytkowych i sterujących wyrobów. / The hygienic certificate does not cover the assessment of the technical parameters, functional properties, or inherent potential of the product.

Wydawca / producer: DAVINCI VALVES
